

AMENDMENTS TO THE DRAWINGS

Formal Drawings are being transmitted under separate cover. Such Drawing Corrections attempt to address the issues raised by the Examiner in the Action Dated 12/28/05.

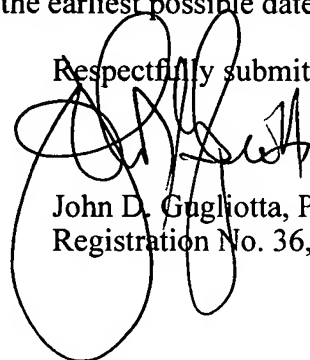

REMARKS / ARGUMENTS

Reconsideration of the application as amended is respectfully requested.

To clarify the questions cited by the Examiner in the action dated 12/28/2005, the present application is not intended to claim a leg raising cushion. Further, the saddle is defined as a slight padded incline in the lower back area to prevent lower slippage and to elevate and anteriorly lift the T-11, T-12, L-1 spinal regions for support and comfort. The saddle will include material that will adhere to clothing and/or skin to further prevent lower slippage. The saddle inflates from a horizontal origin to a more vertical profile for more stretching and tilting by raising the legs.

Therefore, in view of foregoing amendments and clarifications, the applicant submits that allowance of the present application and all remaining claims, as amended, is in order and a formal Notice of Allowance is respectfully requested at the earliest possible date.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'John D. Gugliotta', is written over a large, loopy circular mark.
